

Question: Does your business have 5 or more computers? ¹
Are your support costs cutting into your bottom line?
Do you know what to do when the computers go down?

Answer: Get a low cost maintenance contract. For less than \$1/day, only \$24.95 monthly per computer, you can have:

- Quarterly scheduled on site maintenance and tune ups. (\$75 value), including upgrade recommendation reports.
- Systems inventory and network mapping documentation.
- Annual internal dust removal.
- Disaster recovery planning.
- Unlimited hardware and software upgrades. ²
- Unlimited phone based remote technical support.
- Unlimited Secure hardware disposal and recycling service.
- Deeply discounted unplanned on site computer repairs, including hardware, virus and malware repair. Basic network support included. Same or next business day response guaranteed.
- Loaner PC's available when offsite service is needed.
- Other IT services: Web site, email management, and VPN support available.

Limitations:

1. Minimum specifications required for contract.
2. Hardware and software costs not included.
